2.1 University Preparatory Program (Interlink)

The English language program consists of eight levels, with each level lasting eight weeks. Students study 20 instructional hours per week in each level, covering conversation, reading, and writing. The program is divided into two stages based on the student's proficiency in English:

Stage 1: Foundation stage, comprising three levels (CELP1, CELP2, CELP3), focusing on basic conversation, reading, and writing skills.

Stage 2: Preparatory stage, comprising five levels (ORN1, ORN2, ORN3, ORN4, ORN5).

2.1.1 University Preparatory Program (Interlink) waiver

Students who achieve a score of 513 or higher on the IBT65 (TOEFL/183 CBT) exam, or attain an overall band score of 5.5 or higher on the IELTS test, are eligible for exemption from the Pre-University Program, provided they score no less than 5 in each of the four components (Writing, Reading, Speaking, Listening).

2.1.2 Course registration during the preparatory year

- In the first six levels (preparatory or pre-university stage), students are not allowed to enroll in any academic courses alongside pre-university program courses.
- Upon completion of the fifth level (ORN 02R - ORN 02C), students are permitted to enroll in general courses such as ARB and ISL.

2.2 Academic Program

A comprehensive program of courses that prepares the student over a specific duration of years intellectually, skillfully, and personally to obtain the academic degree in a specific major.

2.2.1 Academic Workload

The minimum course registration requirement is 12 credit units, and the maximum is 18 credit units per semester. In the summer semester: The minimum course registration requirement is 2 credit units, and the maximum is 19 credit units, as illustrated in the table below:

Cumulative GPA Renge		Academic Workload			
		Regular Semester		Summer Semester	
From	To	Minimum	Maximum	Minimum	Maximum
0.00	1.49	12	12	2	6
4.00	1.5	12	19	2	9

2.2.2 Registration Rules

The student registers through the system before the start of each semester. If a student wishes to drop or add any course during the registration period, they can do so through the electronic portal ([Edugate](#)). Registration is the responsibility of the student.

2.2.3 Online Registration Difficulties

If there are cases of course drops or additions that the student cannot resolve through the electronic portal ([Edugate](#)), they can visit the Admissions and Registration Office and follow these steps:

1. Fill out the drop and add form after discussing it with the academic advisor and reviewing the student's academic plan.

2. The student should check their class schedule through the electronic portal (Edugate) to conform the schedule once their request has been accepted.

2.2.4 Add Conditions

1. No schedule conflicts.
2. The course must be part of the study plan according to the specialization or available elective courses.
3. Availability of seats in the required section.
4. No prerequisite requirements.
5. Not exceeding the maximum allowable academic load for registration and according to the student's cumulative GPA, as shown in the table above.
6. If the student cannot register for the minimum required academic load (due to conflicts or uncompleted prerequisites), they may register for available units even if they are below the minimum.

2.2.5 Drop Conditions

1. The number of credit hours should not be less than the minimum allowable academic load for registration.
2. If the course to be dropped is a corequisite with another course, the student cannot drop it without dropping both courses together.

Students who have been prevented from taking the final exam and received a "DN" grade for a course due to exceeding the specified attendance percentage, which is more than 20% and up to 30%, have the right to submit an official request.

2.2.7 Disciplinary Notice (DN) Policies

- Students with attendance below 80% of lectures and practical sessions of a course will be denied entry to the final exam in a given semester. A student denied entry to the exam due to poor attendance is considered to have failed the course and receives a “denied” grade (DN) for the course.
- Students who receive DN for exceeding 20% absences or more in a course may submit an official request with excuses(including medical reports) to the college dean for consideration of lifting the DN.
- If the college council accepts the excuses and provided that the absences are below 30% of the course, the DN is waived.
- Medical excuses require a report issued or certified by the university clinic or a government hospital, and if a sick leave is found FORGED, the student will be referred to the disciplinary committee.

2.2.8 Course Withdrawal

A student can withdraw from one or more courses without being considered as failing the course during the specified period in the academic calendar.

2.2.9 Steps to withdrawal from courses

1. Consult with the academic advisor to understand the impact of the withdrawal on the study plan.
2. Submit the request through the system (Edugate). Upon approval, a grade of "W" will be recorded for the student.

2.2.10 Implications of Withdrawal

- You cannot withdraw your application after the college approval.

- The difficulty lies in registering according to the academic plan levels due to the possibility of scheduling conflicts between lectures and exams of different level courses.
- There is no guarantee that the course will be offered in the next semester.
- The student is assigned a grade of W (Withdrawn). A W grade does not affect the GPA.
- It affects adhering to the academic plan and completing graduation requirements without exceeding the maximum time allowed for graduation.
- Not attending until approval of the request may result in disqualification, affecting the assessment of registered courses and consequently lowering the student's cumulative GPA.

2.3 Apology for Studying

A student can apply for an apology for a semester without being considered failed during the specified period in the academic calendar. Follow these steps:

1. Fill out the apology form through the Learning Management System (LMS).
2. Students are allowed a maximum of three semesters on an apology, and these semesters must not be consecutive.
3. The student will be automatically re-enrolled and registered immediately after the end of the requested semester. If the student wishes to take an apology for the following semester, they must submit a new request to the college for consideration.

2.4 Study Postponement

The student submits a postponement request to the college dean or their authorized representative, within the specified period in the academic calendar for the academic year. The request must be submitted before the end of the semester preceding the

postponed semester. This period is not counted towards the standard graduation period.

2.4.1 Study Postponement Conditions

1. The postponement period should not exceed two consecutive semesters or three non-consecutive semesters at the maximum during the student's stay at the university.
2. If the student is not enrolled in the semester, then he/she will be considered discontinued.
3. The postponed period is counted from the semesters allowed for the student to take leave from studies and is not counted towards graduation requirements.

2.4.2 Applying for Study Postponement

The student submits a postponement request to the college dean or their authorized representative, within the specified period in the academic calendar for the academic year. The request must be submitted before the end of the semester preceding the postponed semester. Follow these steps:

- If the postponement period is open according to the academic calendar, the student submitted his/her application electronically via (EduGate).
- If the postponement period is closed according to the academic calendar, the student submitted his/her application in person.

The student is automatically re-registered after the postponed semester. If the student wants to postpone the study for the following semester, a new request must be submitted to the college.

2.5 When should one apply for Re-enrolment

Only in the case of withdrawal from the university or discontinuation, postponement and apology do not require this.

2.5.1 Re-enrolment Procedure

1. The student must apply for reinstatement within four academic terms from the date of termination of enrollment.
2. The student's college council must approve the reinstatement.
3. If more than four academic terms have passed since the termination of enrollment, the student may apply to the university as a new student without reference to their previous academic record, provided they meet all admission requirements applicable at the time. The university council may grant an exception to this based on the college council's recommendation, with the condition that the interruption period does not exceed eight academic terms.
4. Reinstatement of a student is not permitted more than once, unless the university council grants an exception based on the college council's recommendation.

Reinstatement of a student who has been expelled from the university for disciplinary reasons is not permitted until three years have passed since the expulsion decision. The executive regulations of this statute specify the criteria and procedures for such cases.

2.6 University Dismissal

A student is academically dismissed from the university in the following cases:

- If they receive three consecutive warnings for having a cumulative GPA below (1.00) out of (4.00). The university council may, based on the college council's recommendation, give a fourth opportunity to those who can raise their cumulative GPA by studying available courses.
- If they do not complete graduation requirements within a maximum period of half the program duration, in addition to the program duration. There are some

exceptions granted by the university council based on the college council's recommendation.

- If the student violates university regulations, they are expelled disciplinarily.

2.7 Graduation

A student graduates upon completing graduation requirements according to the academic plan, in the following cases:

1. The cumulative GPA of the student is not less than 1.00 out of 4.00.
2. If the student passes all courses according to the academic plan but obtains a cumulative GPA less than (1.00) out of (4.00), they must register for some courses based on the department council's recommendation and the college council's approval, or their authorized representative, to raise their GPA and obtain the academic degree according to their academic plan.

- Students are not allowed to enter the final exam after half an hour from its start, nor can they leave before half the exam time has passed.
- Cheating on or attempting to cheat on exams, or violating exam procedures and rules, will result in disciplinary action against the student according to the student conduct regulations.

2.8.3 Reviewing of Course Grades (Grade Appeal)

- The student must contact the course instructor before submitting an appeal to verify the assigned grade.
- If the student is not satisfied with the course grade, they may submit an appeal after paying the specified fees.
- The appeal will be referred to the department head for review by the relevant review committee, and the student will be informed of the final outcome.
- A student cannot submit appeals for more than three courses in one semester.

2.8.4 Overall Assessments

The overall evaluation for the cumulative GPA at the time of graduation is based on the student's cumulative GPA as follows:

Classification	Cumulative GPA
Excellent	3.50 to 4.00 out of 4.00
Very Good	2.75 to less than 3.50 out of 4.00
Good	1.75 to less than 2.75 out of 4.00
